

# Senator Mullis Announces Bold Legislative Agenda for 2022

CHICKAMAUGA (August 17, 2021)

Georgia State Senator Jeff Mullis (R-Chickamauga) released the following statement regarding his legislative plans for the 2022 legislative session.

“Joe Biden, Stacey Abrams, and their socialist colleagues have put a target on the State of Georgia. Their liberal agenda would doom the working class. They have tried to shove their socialist policies down our throats, costs us the MLB Allstar Game, and treat China with kid-gloves. We must bring an end to the disastrous policies of the radical left.

In January of 2022 I plan to introduce the following legislation:

1. A bill to permanently ban government mandated vaccine passports
2. A bill to permanently ban Critical Race Theory (CRT) from being taught in any school that receives public funding
3. A bill to ban public contracts from being awarded to Chinese government-owned businesses
4. A bill to make Georgia a Constitutional Carry state

The good people of Georgia and the 53<sup>rd</sup> District will not tolerate government overreach into our lives. We demand freedom, not mandates.

I look forward to introducing these pieces of legislation and continuing to fight for the America First policies of Donald Trump, and for the hardworking citizens of Georgia.”
